- CI/CD
- Git
- Docker
- SQL
- HTML
- Css

# About Me:

I started my journey at 13 and have grown into a qualified, hands-on developer with experience in Java, Spring Boot, Python, C#, AI, and Blockchain technologies. I am passionate about learning, building, and improving systems through practical development. In addition I volunteer as a martial arts coach for both children and adults, thus I have developed teamwork, responsibility and mentorship skills.

## EDUCATION :

- WETHINKCODE\_  
2024-2025
  - Software Development

## WORK EXPERIENCE:

- LIDDX LABS 2025 (CONTRACT)
  - Software Engineer, focusing on fullstack development, APIS, database management, and blockchain systems
- WETHINKCODE\_ TECHNICAL MENTOR
  - Guide to new developers, helping them navigate the software development world, and helping them find the best methods to learn and grasp new concepts
- CRAFT CREATIVE BREWHOUSE 2024 (CONTRACT)
  - Full stack web developer focusing on responsive design, building an intuitive UI, and managing the backend.

## PERSONAL PROJECTS:

As a hackathon participant I have built many projects mostly focused in blockchain and AI .These projects improved my rapid development and teamwork skills. all my personal projects can be found here on my [personal website](#)
